Earthsongs

was originally established as both a fine art ceramic studio, creating sculpture, tile, and murals, and as a center of creativity and peace, whose energy would radiate and influence the area where it was located. For the past 18 years, Nino & Linda have worked to achieve those goals in the heart of Metuchen.

For the past few years, we have offered an annual series of workshops. The **2012 Workshops** will hopefully appeal to a broad range of adults and children interested 'to make magic with mud' & use earth to create art!

Playful excellence has characterized Earthsongs' approach to clay-making, and that spirit continues to infuse this group of workshops. They are ideal as a family activity, and there is a pricing structure to encourage that.

*So, come,
creatively touch the earth,
and get to know
another dimension of your
own clayful self!*

*All workshops are limited to ten participants,
on a first-come, first-served basis.
A deposit will hold your space;
with full payment requested
the first evening of class.*
